from insight to action

Funded by the Beef Checkoff.

Objectives and Report Organization

This study was designed to gain insights into consumers' attitudes, behaviors and interests regarding ground beef to provide guidance to industry stakeholders on how to add value to their ground beef product development and sales efforts.

This study investigates a wide variety of ground beef topics within the context of four consumption situations:

- Non-Hamburgers at home
- Hamburgers at home
- Hamburgers purchased at limited service restaurants
- Hamburgers purchased in full service restaurants

For all questions examined, consumers are looked at in total and by age cohorts: Millennials, Generation X and Baby Boomers.

In addition, throughout the report we comment on notable differences observed on other sub-groups, including level of beef consumption, beef attitudes, "food and health" involvement (FHI+), household income, gender and presence of children under 18 in the household. There certainly are many more valuable sub-group findings available in the set of cross-tabulations that accompany this report.

Methodology

Respondent Qualifications

- No one in household employed by a food manufacturer or processor, a food wholesaler or distributor, a market research company, or an advertising agency
- Either do about half or more of the ground beef shopping for the household or have a moderate or high level of influence in the purchase of ground beef for household
- In addition, to qualify for each specific ground beef segment, consumption frequency criteria were employed to achieve approximate balance in the number of respondents per situation.

At Home Non-Hamburgers	At Home hamburgers	QSR/LSR	FSR
<ul style="list-style-type: none"> • Use ground beef for dishes other than hamburgers 2-3 times per month or more often 	<ul style="list-style-type: none"> • Cook hamburgers at home about once a month or more often 	<ul style="list-style-type: none"> • Eat hamburgers in a fast food restaurant once a month or more often 	<ul style="list-style-type: none"> • Eat hamburgers in a sit-down restaurant about once every two months or more often

Data Collection

- Online interviews
- Occurred between December 18, 2013 and January 19, 2014
- Standard incentives offered to Research Now panel members
- Non-Hamburgers n=875; Hamburgers n=865; QSR/LSR n=880; FSR n=880
- Note that due to questionnaire length, some questions and attributes within questions were asked only among a subset of respondents based on random assignment.

Segment definitions

- Millennials—born 1980-1999
- Gen X—born 1965-1979
- Boomers—born 1947-1964

Detailed Findings – At Home Ground Beef

Qualified At Home Ground Beef respondents were introduced to the survey they qualified for with one of these statements:

- This survey covers the use of ground beef meals, EXCLUDING hamburgers. This includes meals such as tacos, spaghetti, chili, casseroles, meatballs, meatloaf, pizza or any other meal that might have ground beef in it. So please remember that when we say ground beef meals we are only referring to non-hamburger meals.

- This survey asks you about your thoughts and experiences about hamburgers that you cook at home.

Northeast	20

Two notable demographic differences:

- Compared to U.S. census data, ground beef users skew higher income
- At Home Non-Hamburgers skew more female, compared to At Home Hamburger

Importance of Factors in the Selection of Ground Beef/Hamburgers

Freshness is of key importance in the selection of ground beef for meals or hamburgers at home.

- Price and leanness are the next most important factors.
- Certification for responsible animal and environmental standards is important to large minority.

Q1. Please indicate how important the following factors are to you when selecting ground beef for meals such as tacos, spaghetti, meatballs, meatloaf, pizza, hot dishes, casseroles, chili or any other dishes that include ground beef/for preparing hamburgers at home. 1=Not at all important 10=Extremely important

Freshness, leanness, and distribution channel are of greater importance to Boomers than others

Millennials, on the other hand, rate several factors less important than the other cohort groups. The Non-Hamburger respondents value responsible animal welfare and environmental standards more than their counterparts.

Importance of Factors in the Selection of Ground Beef/Hamburgers

Top 3 Box	At Home Non-Hamburger				At Home Hamburger			
	Total %	Millennials %	Gen X %	Boomers %	Total %	Millennials %	Gen X %	Boomers %
The color of the meat	79	73 ↓	77	86 ↑	74	65 ↓	79	80 ↑
Date code on the package	78	69 ↓	77	86 ↑	79	74	75	86 ↑
Price per pound	72	74	71	70	66	65	68	66
Leanness (80/20, 90/10, etc.)	69	60 ↓	69	77 ↑	68	58 ↓	70	76 ↑
The cut of meat the ground beef is made from is identified (ground chuck, ground sirloin, ground round)	62	51 ↓	62	71 ↑	58	52 ↓	62	63
The package size	56	54	61	53	49	47	53	46
The store where it is being sold	50	45	50	55	47	41 ↓	45	53 ↑
A certification that the rancher meets responsible animal welfare and environmental standards	45	49 ↑	46	38 ↓	42	42	44	40
The region where the beef was raised	27	27	27	25	23	24	22	23
A recognized brand name	24	24	23	24	29	29	29	28
Minimum n=	411	141	127	129	407	132	116	137

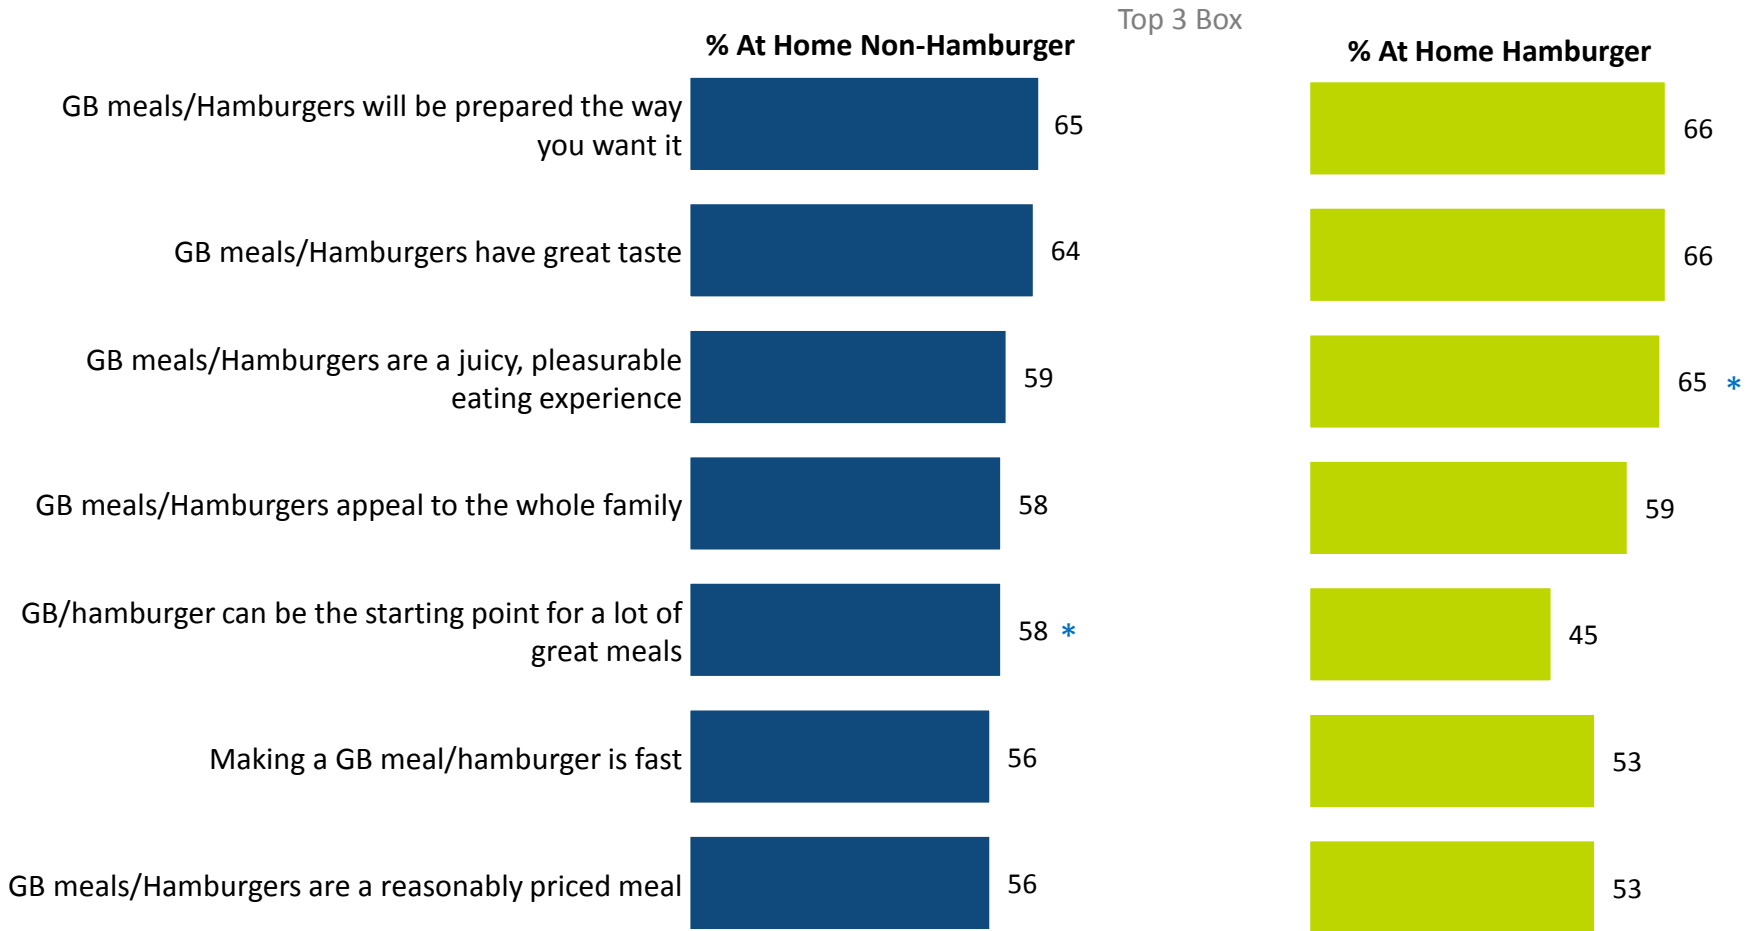

Other sub-group observations: males are less sensitive to the color of the meat in both contexts (Hamburger and Non-hamburger) while females find leanness more important than other groups in the non-hamburger context. FHI+ find multiple factors to be more important than the average across both contexts.

Q1. Please indicate how important the following factors are to you when selecting ground beef for meals such as tacos, spaghetti, meatballs, meatloaf, pizza, hot dishes, casseroles, chili or any other dishes that include ground beef/for preparing hamburgers at home. 1=Not at all important 10=Extremely important

Importance of Attribute in Decision to Prepare Ground Beef Meal/ Hamburger At Home

Preparing a meal the way desired by the individual and the taste of ground beef meals/hamburgers are highly important in the decision to prepare meals with ground beef at home.

- For a majority, convenience and the price of ground beef meals/hamburgers are important.

Q25. Please indicate how important each of the following is to you when deciding whether to prepare a ground beef meal/hamburgers at home?

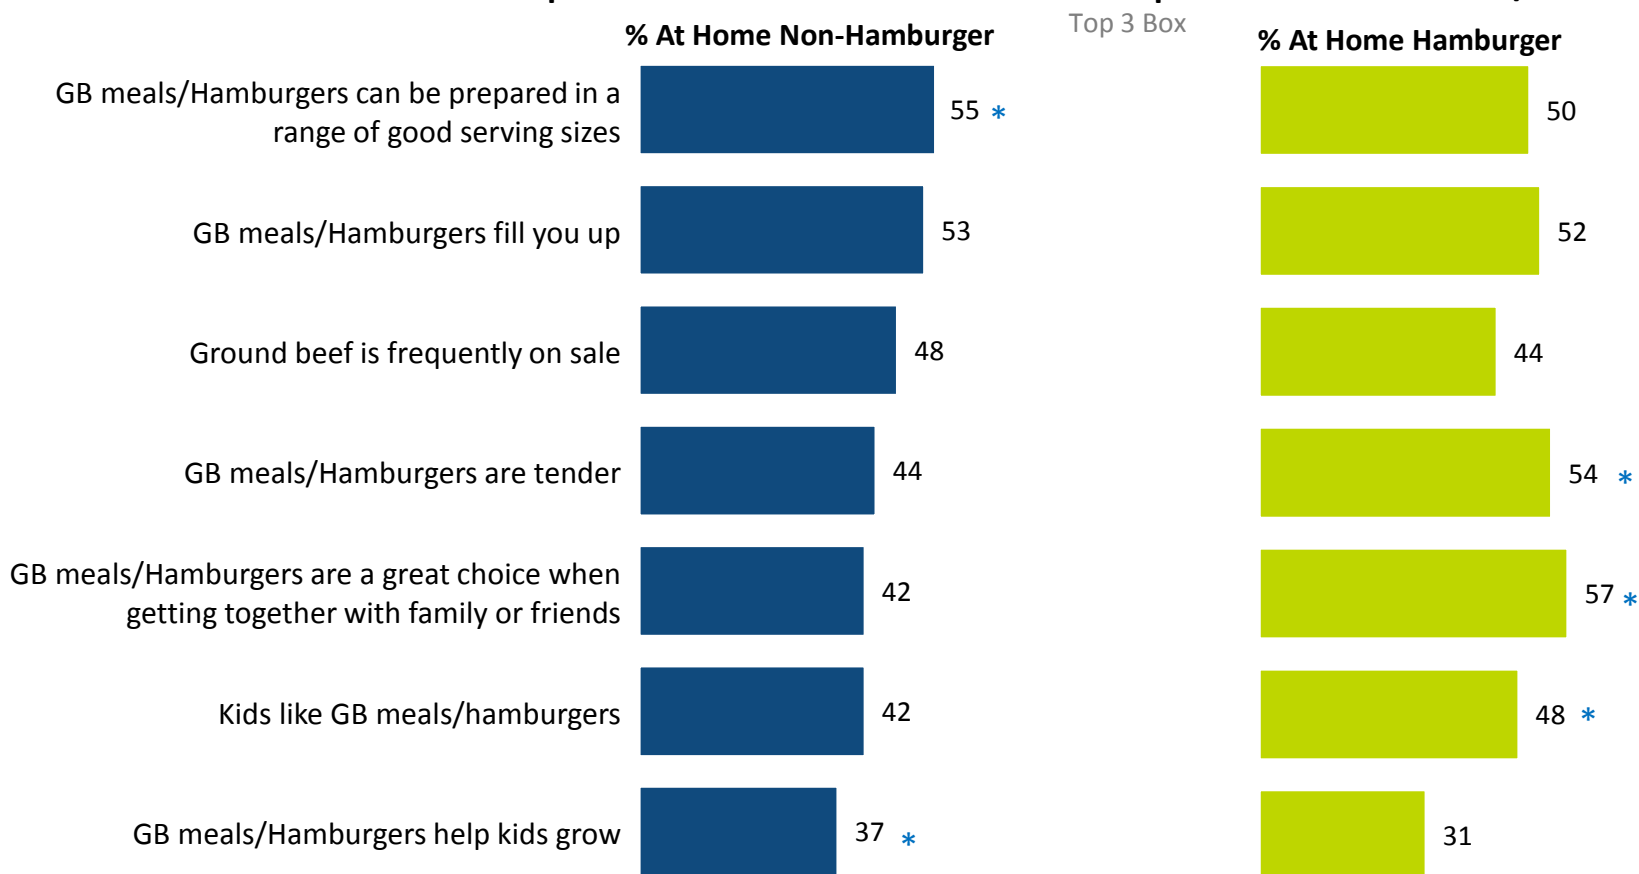

1=Not at all important 10=Extremely important

Consumers are more likely to say that hamburgers are a great choice when getting together with others, compared to GB meals

While the relationship between ground beef and kids looks less important, among those with children in the household, these numbers are significantly higher (like GB meals 50%, make kids grow 47%; like hamburgers 63%, help kids grow 39%).

GB meals/Hamburgers help kids grow	37	43	37	30	31	38	30	25
Minimum n=	442	186	139	117	489	196	147	140

Other sub-group observations: FHI+ assign much higher importance to dimensions of customizing (made the way you want them) and to great taste across both contexts. On the lower end, Light and Super Light Beef Consumers assign markedly lower importance to the dimensions related to taste, enjoyment and convenience across both contexts.

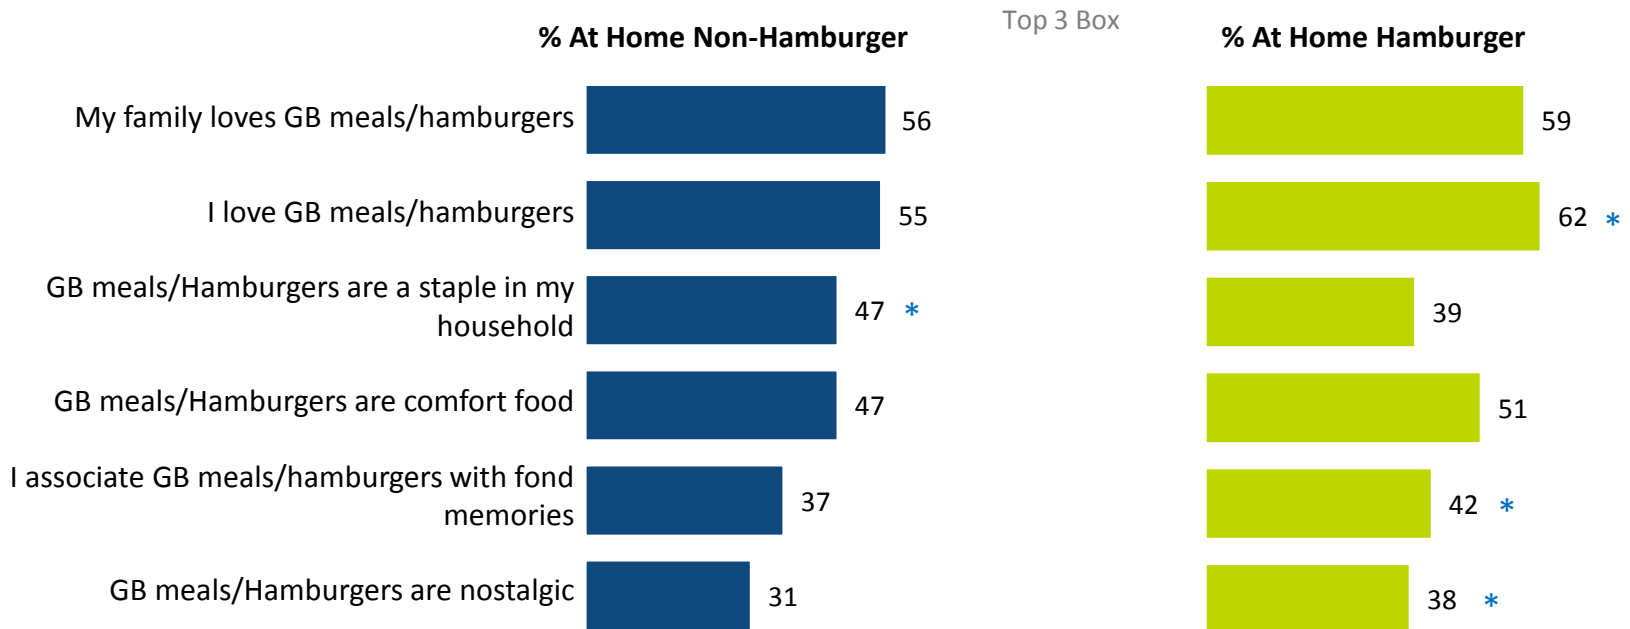

Q25. Please indicate how important each of the following is to you when deciding whether to prepare a ground beef meal/hamburgers at home? 1=Not at all important 10=Extremely important

Level of Agreement with Statements about Ground Beef

Ground beef meals and hamburgers are loved by about 6-in-10 families, ground beef meals are a staple in nearly half of households.

Hamburgers evoke fond memories and nostalgia to a greater degree than ground beef meals.

Consumers are mixed on whether they see ground beef as a comfort food.

Q26. Please indicate your level of agreement with each of the following statements. 10=Strongly agree 1=Strongly disagree

Ground beef burgers positively touch consumers' senses in many areas

continued

The aroma of ground beef burgers on the grill is enjoyed by a larger percentage of consumers than the aroma of ground beef in a skillet.
